

Comac Vispa 35 B

*The perfect solution for cleaning
non-slip safety floors*

Vispa 35 B is the smallest, most efficient battery-powered scrubber dryer available.

Vispa 35 B is ideal for maintenance cleaning of all hard floor types including vinyl's, safety floors and tiled floors.

Vispa 35 B can be fitted with a drive board, soft and hard scrubbing brushes and **microfibre** cleaning pads.

Vispa 35 B is battery-powered and therefore cable-free so it can operate freely and safely even with patients, staff and visitors around.

Vispa 35 B can move easily around furniture and can clean in to corners and congested areas thanks to its excellent manoeuvrability.
